NATIONAL SECURITIES DEPOSITORY LIMITED

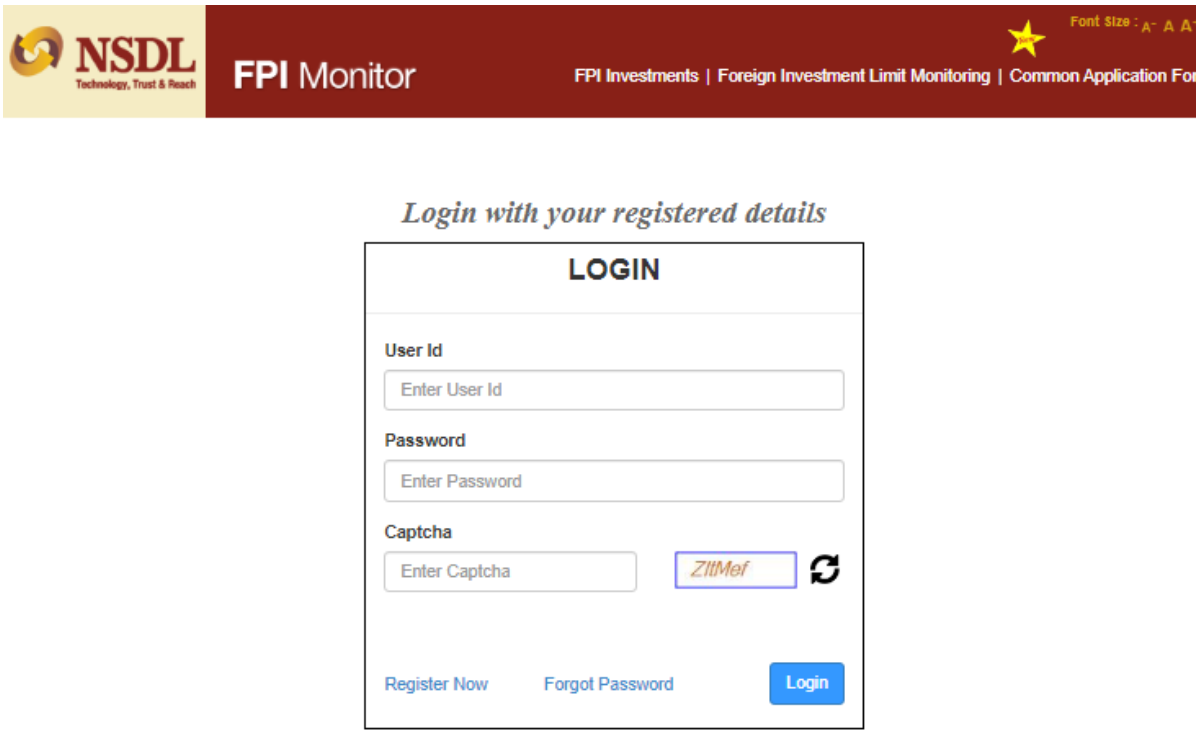

e-Lock Signing Facility

User Manual

This document specifies digital certificate signing through eLock in FPI registration process.

eLock installation process:

- Login to NSDL FPI portal. Navigate to login page to download the client installer and click the Text “click here” (yellow highlighted)

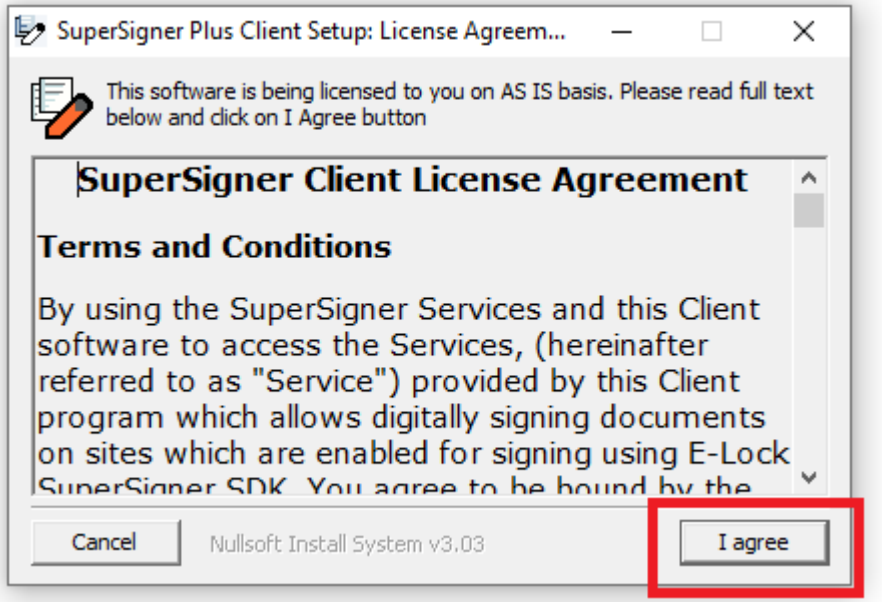

- Download ELockNSDLClient.exe.
- Right click and select Run as administrator to initiate installation.

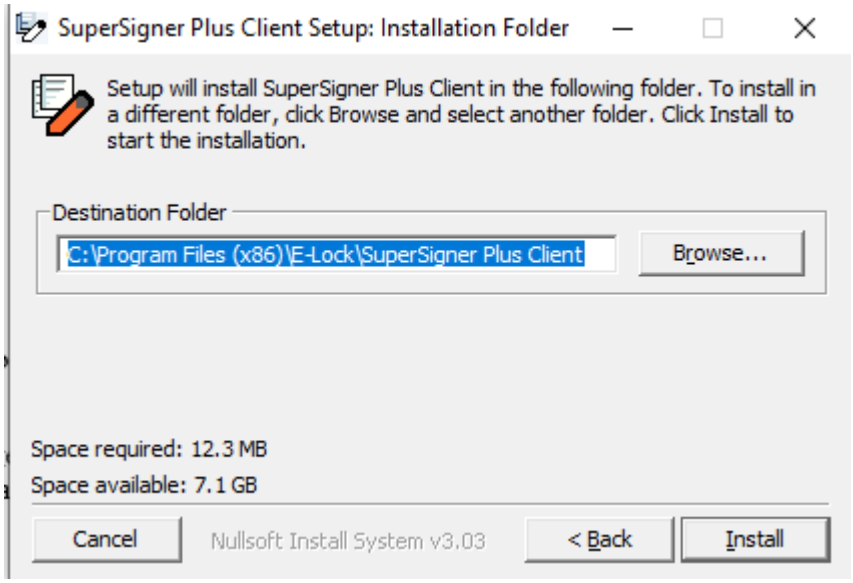

- A Windows Defender check turns up as below.

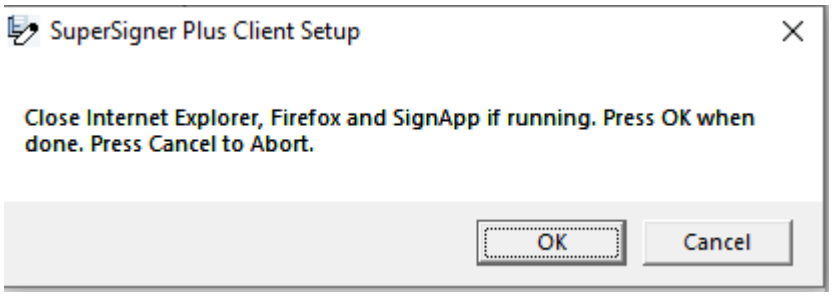

- A prompt appears on the desktop with EULA. Click on “I agree”

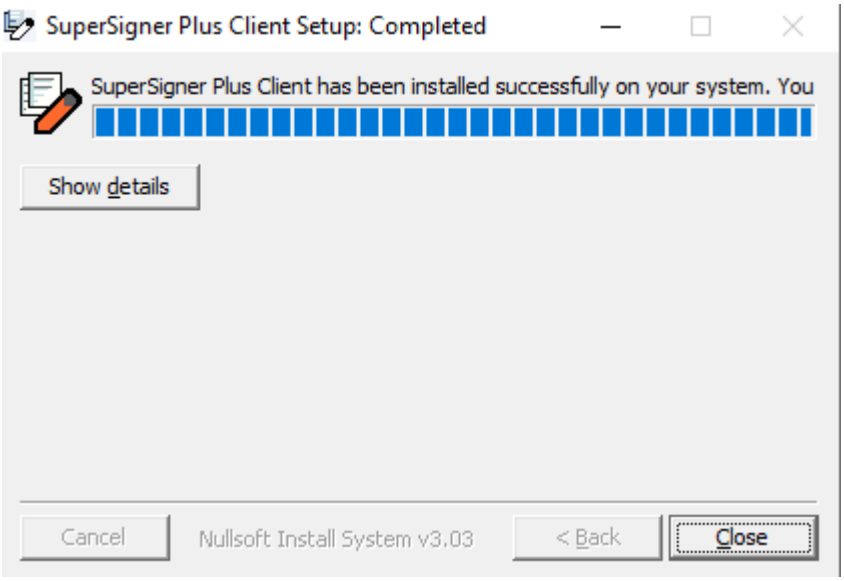

- Default location is C:\Program Files\E-Lock\SuperSigner PlusClient. Click on Install

- A message appears asking to close all web browsers for first time users and for repeat users, the message asks to close all web browsers and SignApp application

- Click on Close button

- Restart the Computer
